**ACCREDITED
EVENT**

November 22nd and 23rd

Welcome to WINFOCUS World Congress 2024

This year's congress, UNITED WE SCAN, emphasizes how PoCUS fosters unity while embracing diversity and respecting individuality.

In these unprecedented times, as the world faces numerous challenges, the importance of unity, medical advances, and global education in healthcare has never been more evident.

This congress serves as a beacon of hope and collaboration, uniting healthcare professionals from across the globe in a shared mission to advance medical knowledge and improve patient care through the transformative power of PoCUS.

WINFOCUS

November 22nd and 23rd

In this year's annual congress we will delve into the latest advancements in PoCUS, exploring cutting-edge techniques, emerging technologies, and innovative applications in various medical specialties. From cardiology to emergency medicine, from pediatrics to critical care, our diverse program reflects the broad scope and versatility of PoCUS in modern healthcare.

Immerse yourself in **two full days with three tracks** and two-hour sessions featuring a mix of pre-recorded presentations, live panel discussions, and Q&A sessions where speakers will engage with live questions from the audience, fostering interactive learning experiences. Enjoy multi-language sessions in Spanish and Portuguese, and join us for the Point-of-Care One-World Workshops (POW!) as we aim to beat our previous record of 1734 students completing overlapping workshops over a 36-hour period.

November 22nd and 23rd

**We look forward to see you
during the Virtual Congress 2024!**
